

Mercy of the Rain

©Juanita Wilkins August 2003

Done the work, sweat 'til it seems we can't sweat anymore
Stars are out, June bugs knocking on our screen door
And the stars are pretty when they're shining bright
But there's nothing better than the sound of rain in the night

All our lives, it's been the same
We live in faith and wait upon the mercy of the rain

How many things can I be sure of in this life?
This warm earth, and our love that makes everything alright
So when clouds gather I just hold on tight
Cause I know the blessing of the sound of rain in the night

Chorus

Bridge: And always underneath it all in layers like the land
Joy and fear, triumph and doubt
For reasons I don't always understand

I watch the sun red and low and setting on another day
And I get tired but I wouldn't want things any other way
No matter how hard it's worth the fight
Cause there's love and laughter in the sound of rain in the night

Chorus X2
