G

Nobody here but me and the sun

C

Am7

None of the weight of the world on my shoulders

D

That'll come later

Morning is mine

Everything's shining and everything's real

I can be anything, be anyone

That I can dream of

C D

And I can be

G G/F# Em

Wherever my heart finds me

C D

I can have everything

G

When morning is mine

Inst. (verse & chorus)

It's not that I mind

All of the cares that come with the day

Knowing the joy that comes with every sorrow

Walking a hard road

Lately I find

I can survive what the world throws my way

Knowing tomorrow's not written in stone

Can always get better
