Intro: D//// C//// G////

D C
Sweet love, never thought I'd fall again
G D
Thought I was done with that, long time ago
D C
High wire, too scared I'd fall again
G D
Nothing could talk me into letting go
C G
But you could call out my name,
D
And I'd hear you
C Am7 D
If you were ten thousand miles away
C G
And if you needed me close
D
I'd be near you
C G D
My love is the stars in a sky without rain

Inst.

Chorus

I know, someday you might walk away
That's a chance you take, letting go
Your love, like a new gift everyday
Hold you in my heart, I'm not letting go
