

G Am
 No use crying, doesn't change a single thing
 C G
 Sometimes we take a wrong turn; sometimes our dreams take wing
 G Am
 "If only's" drive you crazy when you look across your past
 C G
 So you push the bitter memories down and hope the pain won't last

G Am
 We get older, doesn't mean that we get wise
 C G
 Any more than rain is guaranteed because there's cloudy skies
 G Am
 We don't ever, don't ever get to choose
 C G
 Which parts of life come easy, which parts give you the blues

C G
 I had no way to know that fate would drop you in my path
 Am C D
 Can't say how glad I am the best part of my life
 G
 Is the second half

It's a mystery how I ever found my way
 Without your love to guide me, help me make it through the day
 Looking back now on the hard times I've been through
 Every moment all was worth it cause it lead me here to you
